

Supplier Advisory Council “SAC”

SEA Treasurer, SAC Chairman

Randel Fry, President/CEO Airco Industries – Photo Etch

Randel (Randy) Fry has been CEO and owner of Airco Industries (d.b.a Photo Etch) since 1997. Under Randy's guidance, Photo Etch has developed a leadership status in the aerospace manufacturing industry and has established a significant customer base that includes: Boeing, Lockheed-Martin, Rockwell Collins, Raytheon, Honeywell, L-3 Communications, U.S. Department of Defense, U.S. Air Force, and U.S. Navy. Randy has a B.S. in Mechanical Engineering from Indiana Institute of Technology and an MBA from the University of Dallas. He also attended the Syracuse University Graduate School of Advanced Management and Marketing program.

Brad Hart – CEO, Roberts Tool Company, Inc.

Mr. Hart is President of Roberts Tool Company, Inc. that manufactures precision parts for the aerospace industry. Mr. Hart has 20 years experience in aerospace manufacturing, and has spent the last 6 years implementing Lean manufacturing at Roberts Tool Company. He holds a BS in Mechanical Engineering from University of Colorado.

Mark King, President/CEO and Board Director, Micropac Industries, Inc.

Mark has 29 years senior management experience in design, development, manufacturing, and business development serving the advanced electronics industry, including 22 years with Texas Instruments, Inc. and later Raytheon through acquisition. Prior to his current position, he was President and COO of Lucas-Benning Power Electronics, Inc., a new business start-up. Mark holds a BS degree in Engineering and a Master's degree in Business Administration.

Kevin Urban, President, Midwest Metal Products

Kevin has been president and part owner of Midwest Metal Products since 1999. He has over 40 years of diverse experience in the sheet metal fabrication industry. Midwest specializes in low volume, high mix, precision sheet metal parts for the aerospace, medical, and electronics industries. Kevin continues to lead continuous improvement into the future.

Mark Heasley, President & CEO, Synchronous Aerospace

Mark's aerospace career has spanned a lifetime, starting in his family's manufacturing facility in Southern California. He opened his own manufacturing business in 1989 and later sold the company in 2000 to Precision Components Group. Mark joined Synchronous Aerospace in 2003 through the acquisition of Precision Components Group. Mark oversees the daily operations of Synchronous Aerospace, working closely with customers to ensure the highest level of satisfaction while delivering quality parts. He has worked on various programs including 737, 777, 787, C-17, F-15, F-18, B1 Bomber, Space Shuttle and Delta programs.

Julian A. Guerra II, President, Perfekta, Inc.

Julian Guerra has been President of Perfekta, Inc. since 2005 during which he has guided the company through significant restructuring and historical growth. Perfekta, Inc. manufactures complex monolithic components and assemblies for the aerospace, defense and general aviation industry. It's primary customer base includes Hawker BeechCraft, Cessna, Gulfstream, Boeing, Spirit, Vought, Bombardier, GKN.

Dale H. (Herb) Sizemore, Jr., President Torotel Products, Inc.

Herb Sizemore has been president of Torotel Products, Inc. since 2002 during which he led the company through a plant relocation and significant improvements in the reduction of manufacturing lead times. Torotel Products, Inc. manufactures custom magnetic components and value added assemblies for defense, aerospace and industrial applications. Torotel's primary customer base includes Lockheed Martin, Raytheon, Rockwell Collins, Goodrich Aerospace, Honeywell, Hamilton Sundstrand, Astronautics, BAE Systems and ITT. Mr. Sizemore has a bachelor degree in electrical engineering, a masters degree in business administration and a juris doctorate from the University of Kansas

John Laskowsky, President and CEO, Barry Controls Defense & Industry

John is the President and Chief Executive Officer of advanced anti-vibration and noise management solutions group Barry Controls. The company is focused on providing custom solutions to the Department of Defense, US Navy, US Heavy Duty Truck Market, US Rail market, and commercial marine applications. John has advanced through engineering, technical sales, and general management roles with Boeing, Framatome Group in France, Eaton in the US and China. His experience includes a thorough knowledge of Baldrige based business systems, Operations, Engineering, Marketing and Customer Service as well as start up and manufacturing experience in China.

John holds a BSEE from the University of Missouri and a MBA from Pepperdine University. He also has completed at Pepperdine University their Entrepreneurial Management Program.

Marzel Neckien, President, W Machine Works, Inc.

Marzel has more than a dozen years experience in Aerospace and Defense manufacturing. Marzel's lean journey began 5 years ago and his pursuit for perfection continues today, with an emphasis on process maturity. He attended Cal State University, Northridge where he obtained a BS in Finance and an MBA.

Stephen Lautenschlager

Stephen Lautenschlager is the Chief Operating Officer and Lean Champion at Esterline Kirckhill Elastomers in Brea, California and Esterline Haskon Aerospace in Taunton, Massachusetts.

Steve joined Esterline in 2004 as VP Human Resources for the Engineered Materials Platform and was selected to lead Kirckhill's Lean Enterprise initiatives in 2005. Prior to joining Esterline, Steve spent most of his career with major Fortune 500 manufacturing corporations, where he participated and lead large-scale business improvement teams. Steve holds a master's degree from Western Oregon University, and a bachelor's degree from Bethany University in California.
