Accelerating Supply Chain Performance

On this day, we will benchmark three suppliers, Cox Machine, Premier Processing and Graco Supply Company. How are these suppliers competing and winning? They've formed a supply chain that eliminates wasted time both in their operations and between each operation.

- normal lead times change from months to days
- batch sizes that support delivery tomorrow
- runaway cash flow
- all of which spells an unfair competitive advantage

ABOUT COX MACHINE:

Cox Machine specializes in the production of precision parts and assemblies for the aerospace industry. Their production facilities are highly centralized and make use of innovative technologies including Andon systems, dashboards, paperless manufacturing, and shop floor tablets. Cox Machine's lean strategies put them a step ahead of their competition by offering their customers globally competitive pricing within core capabilities and shorter lead times.
